MARY RUTH SMITH and W. BARRY WOOD, JR. Heat labile opsonins to pneumococcus. I. Participation of complement. . . . . 1209

HYUN S. SHIN, MARY RUTH SMITH, and W. BARRY WOOD, JR. Heat labile opsonins to pneumococcus. II. Involvement of C3 and C5. . . . . 1229

G. M. SHEARER and G. CUDKOWICZ. Distinct events in the immune response elicited by transferred marrow and thymus cells. I. Antigen requirements and proliferation of thymic antigen-reactive cells. . . . . 1243

EDNA MOZES, HUGH O. McDEVITT, JEAN-CLAUDE JATON, and MICHAEL SELA. The genetic control of antibody specificity. . . . . 1263

HANSRUEDY RAMSEIER. Quantitative studies on antigenic recognition. I. Immunological and nonimmunological parameters of the response. . . . . 1279

ALAN SOLOMON and CARLA L. McLAUGHLIN. Bence Jones proteins and light chains of immunoglobulins. II. Immunochemical differentiation and classification of kappa-chains. . . . . 1295

SHUANG-SHINE TSAO and WALTHER F. GOEBEL. Colicin K. VIII. The immunological properties of mitomycin-induced colicin K. . . . . 1313

GERRIE A. LESLIE and L. W. CLEM. Phylogeny of immunoglobulin structure and function. III. Immunoglobulins of the chicken. . . . . 1337

K. D. KNUDSEN, J. IWAI, M. HEINE, G. LEITL, and L. K. DAHL. Genetic influence on the development of renoprival hypertension in parabiotic rats. Evidence that a humoral hypertensinogenic factor is produced in kidney tissue of hypertension-prone rats. . . . . 1353

K. J. GAJL-PECZALSKA, A. J. FISH, H. J. MEUWISSEN, D. FROMMEL, and R. A. GOOD. Localization of immunological complexes fixing  $\beta_{1c}$  (C3) in germinal centers of lymph nodes. . . . . 1367

J. J. McPHAUL, JR., and FRANK J. DIXON. Immunoreactive basement membrane antigens in normal human urine and serum. . . . . 1395

FELIX T. RAPAPORT, ANGUS SAMPATH, KYIOCHI KANO, ROBERT T. McCLUSKEY, and FELIX MILGROM. Immunological effects of thermal injury. I. Inhibition of spermatogenesis in guinea pigs. . . . . 1411

CLAUDE GRISCELLI, PIERRE VASSALLI, and ROBERT T. McCLUSKEY. The distribution of large dividing lymph node cells in syngeneic recipient rats after intravenous injection. . . . . 1427
